

EXHIBIT C

Declaration of Hayley Loyd
Evidence/Certification Manager
City of Cedartown Police Department

**IN THE UNITED STATES DISTRICT COURT
FOR THE NORTHERN DISTRICT OF GEORGIA
ROME DIVISION**

Hannah Michelle Israel,
Plaintiff,

v.

Trenton Ryan Garner, in his
individual capacity,
Defendant.

Case No.:
4:26-cv-00270-WMR

Declaration of Hayley Loyd

I, Hayley Loyd, declare as follows:

1. I am over eighteen years old and competent to make this declaration. I make it on personal knowledge.
2. I am a police officer with the Cedartown Police Department. I serve as the Department's Evidence/Certification Manager. In that role, I am a custodian of the Department's body-worn camera recordings. I am familiar with how the Department's cameras record and how those recordings are stored and exported.
3. Cedartown officers wear Getac body-worn cameras. When a camera is docked, its recordings upload to the Department's Getac system, where they are

stored in the regular course of the Department's business. Once uploaded, a recording cannot be edited or deleted by the officer who made it.

4. Exhibit A to Defendant's Motion to Dismiss is a true, accurate, and complete copy of the recording from Officer Trenton Garner's body-worn camera that is stored in the Department's system under the file name "TGarner_5913_08302026001040.mp4." It was recorded on August 30, 2026. It runs six minutes and thirty-five seconds.

5. On October 2, 2026, I exported Exhibit A from the Department's system in its original format, using the system's standard export function. Exhibit A has not been edited, altered, enhanced, or shortened.

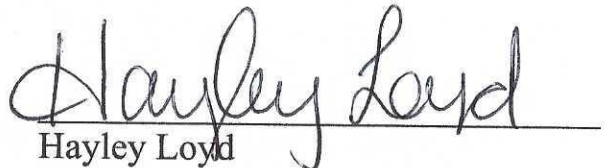

6. A hash value is a digital fingerprint of a file. Any change to the file changes its hash value. I calculated the SHA-256 hash value of Exhibit A. It is: f402224a11ea05f127750c66ebbfde97c73ec7bc36b9ffce5a64d04377c4112. That value matches the hash value the Department's system records for the original file.

7. The date and time at the top right of each frame of Exhibit A are imprinted by the camera when the video is recorded. They are not added afterward. The time shown is Eastern Daylight Time.

8. The camera keeps a rolling buffer of video before an officer activates recording. The buffer records video without audio. When Officer Garner activated his camera at 12:10:40 a.m., it kept the preceding thirty seconds of video. That is why Exhibit A begins at 12:10:10 a.m. and has no audio until 12:10:40 a.m.

I declare under penalty of perjury that the foregoing is true and correct.

Executed on October 6th, 2026, in Cedartown, Georgia.

Hayley Loyd
Evidence/Certification Manager
Cedartown Police Department
